DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-46 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Stronach WO 00/67215. A detailed reading of Stronach by an artisan of ordinary skill would teach all of the claimed invention. See the abstract and page 9 for the quick pick feature. Page 6 discloses the use of a network and the Internet and that communication may be wired or wireless. Page 7 discloses the various types of racing information that can be displayed to the player and that the communications network may be wired or wireless systems using a telecommunications or cable network, which means phone or cable. Pages 8-15 disclose a betting card and an account manager in detail viewing race events at more than one track and future race events.

Response to Arguments

2. Applicant's arguments with respect to claims 1-46 have been considered but are moot in view of the new ground(s) of rejection.

Citation of Pertinent Prior Art

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The three articles listed on the PTO-892 notice of references

Art Unit: 3714

cited are all related to a horse racing game and have within them the feature of a quick pick on a terminal.
